Partnering with Business UX

Business UX Pty Ltd is interested in hearing from individuals and businesses engaged in Information Technology Services who may consider a partnership to enhance or expand their current operations.

Business UX are a Managed Service Provider (MSP) based in Brisbane and support companies Australia wide.

We specialise in providing very secure, reliable and cost effective I.T for small business using our own researched solutions that we have developed on Linux systems over the past 15 years.

We provide secure Linux servers to companies that in turn support the major banks, the Australian Taxation Office and Virgin airlines.

Small business clients include major accounting firms, retail outlets and engineering companies.

Perhaps you need assistance with training, marketing or management to help or kick start your business?

If you require further information or wish to engage in a confidential discussion then in the first instance please contact Paul via email@bizux.com.au or phone
